MEET REPORT — Angrignon Park — September 11, 2016

This was our second time at this very pleasant park, and the first that our SFR timing system has been used here. Our new tent with its flap down on the windward side was a great help, considering the powerful winds that were blasting us early that morning. **Vladimir Gavrilov** designed the courses and, with help from **Dmitri Golovanov**, set most of the 38 controls in the early morning.

Four courses were offered, using 38 controls :

The #4 Long-Advanced course used two maps, had 31 controls and covered a total distance (straight-line measurement) of 8.3 km. **Thomas Kneubühler**, who does all the work for our club's website, clearly dominated the day with a fast 1:01:11. **Nadine Cybulski** was one of two women who did the #4. She finished with an excellent 1:22:05.

The #3 Advanced was 5.8 km and was actually the first part of the Long course. **Cyprian Coman's** lead time was 0:47:54. **Jessica Auer** had a fast 0:56:51 for the women.

The #2—3.6 km with 13 controls—was an intermediate level course. Of the individual 'starts' **Leo Denotkine** edged **Dmytro Yakymenko** by just 24 seconds, finishing in 0:41:23.

The shortest, **#1 course**, had 10 controls and was an easy 1.9 km. It was intended as a learning experience for beginners, family groups and young people. The fastest time was by newcomer **Rosalie Brulé Dho**, who breezed around it in 0:15:25—and then did #2, unofficially.

The meet had 74 'starts' and a total participation of 109 ...of all ages!

CONGRATULATIONS to everyone who participated !

THANKS to those who helped with the meet, which included Vladimir, Lina, Paul, Bruce, Elaine, Dmitri, Elena and Gloria. Apologies to anyone I've overlooked !

John
