Ramblers Orienteering Club

MEET REPORT — Mt. Royal Park — June 7, 2015

Another great day for navigating along the multitude of trails on *The Mountain!* 146 enthusiasts took part, a total that included a lot of families, some of them running or walking with young children. The number of “starts” was 81. It’s interesting to note that there were more ‘starts’ on the two advanced courses, both of which included segments in the Mount Royal Cemetery, than on the easier Courses, nos. 1 and 2, at the ratio of 47 : 34. This is generally not the case.

We again made use of our new (partial) electronic timing system for participants on the two advanced courses. We presently have only 50 of the finger-attached ‘petals’, which are used – so far – for start and finish timing only. So, we came very close to using all of them.

Bruce Glen designed the 4 courses and, along with Elaine, placed all of the 38 controls. The Beaver Lake pavilion proved an excellent location for registration, as well as for handling the starts and finishes.

The **Long-Advanced** course (7.7 km) provided both a navigational challenge and a running/fitness test. There was a climb of close to 250m, if our count of contours-crossed is correct. **Francis Falardeau’s** time of 0:54:36 edged **Thomas Schuessler** by about 3½ minutes to top a field of 23 starts. **Jake Brennan** was 3rd. **Jessica Auer** was the speediest woman over the 18 controls.

The #3 **Short-Advanced** (5.2 km) featured a great run by **Leonid Fichman** (41:35). **Charles Melançon** was 2nd (56:24) and **Olga Rayda** 3rd (1:00:11). **Anna Fichman** placed 4th in 1:07:09.

On the #2 **Intermediate** – 3.8 km, course – **Glenn Wight finished in a fast 38:17, 10 minutes in front of 2nd place Michael Chown.** There were 22 starts on the 15-controls course.

The easiest, #1 2.8 km (13c) course had entries only in the “Group” category — a first for our events! First-timers, **Ken & Danielle Dyson** + Taj (16 yrs.) took 42 minutes to complete it, one minute less than **Catherine Cowan** + Issac (6 yrs.) who finished 2nd in a field of eleven starts.

CONGRATULATIONS to everyone who participated and very **SPECIAL THANKS** to all who helped.

It takes a lot of effort & a great team to put on a day of Orienteering for 146 enthusiasts!!!

Elaine compiled a list of the tasks involved and the people who handled them. **Thank you, Elaine.**

Map corrections / updates — J & Bruce
designing the 4 courses – Bruce
review of courses – J
sending out announcements – J
printing maps on Saturday – J & Gloria
hanging the 38 ‘controls’ – Bruce & Elaine
setting up & maintaining computers - Bruce
processing registration – Gloria & Bruce, Frederic & Dmitri
organizing the starts & finishes – Lina & Dmitri
instructing beginners – J
recruiting volunteers – Dmitri
verifying Courses #1 and #2 punch cards – Gloria
removing controls – Dmitri & Anatoly
remembering the cookies – Gloria
compiling, verifying & posting results – Dmitri, Bruce, Gloria, Thomas & J.
up-dating the mailing list and writing the Report – J

and let’s not forget...

sweet fresh strawberries & homemade chocolate chip cookies — Anna!

thank you **all** for vOlunteering!
it couldn't have been done without yOu!

A special thanks to Dmitri for his leadership in the drive to acquire our new e-timing system and software.

Cheers to Bruce for the well placed water station on course #4.

Much gratitude and appreciation to John & Gloria for their continuing inspiration and support!

ps. please forgive — and let me know — of any omissions*elaine*

THANKS,
John
